

# BORALEX'S ENVIRONMENTAL MISSION

## ACT TODAY FOR TOMORROW

FOR BORALEX, ENVIRONMENTAL CONCERNS ARE IMPORTANT OR PRIORITY ELEMENTS IN ANY DECISION ABOUT THE MANAGEMENT OR DEVELOPMENT OF THE CORPORATION. THE ADOPTION OF THIS ENVIRONMENTAL MISSION IS THE RESULT OF MANAGEMENT'S WISH TO CLEARLY STATE ITS COMMITMENT TO THE ENVIRONMENT.

### BORALEX UNDERTAKES TO

ENCOURAGE protection of the environment, the principles of sustainable development and the generation of renewable energy;

ADHERE to the environmental laws and regulations that govern its activities;

SUPPORT internal initiatives in research, development and continuous improvement in the areas of sustainable development and environmental protection;

ENSURE implementation of an environmental action plan at each operations center;

ENTRUST management of the environmental mission and related matters to qualified and responsible personnel;

TRAIN and make employees ACCOUNTABLE for sustainable development and environmental protection;

ADOPT a proactive, responsible and respectful approach to the environment when developing company projects and production sites, to minimize the impacts and risks associated with operating power generation facilities;

COOPERATE with communities and government authorities to develop partnerships in the area of environmental management and corporate accountability;

INFORM internal and external parties about the Company's environmental mission.
