

Donation and Sponsorship Policy

Boralex as a fully responsible corporate citizen supports social, environmental and humanitarian causes every year. From the time it was founded, the Corporation has paid special attention to supporting the human and economic development of the regions in which it operates.

The Boralex Donation and Sponsorship Policy pursues the following objectives:

- To guide decisions made about donations and sponsorships so that they are in line with the Corporation's strategic orientations;
- To facilitate the management of requests and contributions; and
- To define and make public the selection criteria for donations and sponsorships.

Applications for donations and sponsorships must follow certain guidelines, be consistent with the Corporation's strategic orientations and communication strategies, and respect its core values.

All Boralex investments in donations and sponsorships must prioritize the following sectors:

- **Environment and Sustainable Development;** and
- **Social and Community** (in the regions where the Corporation's facilities are located).

When a request meets the guidelines and addresses one of the priority sectors, it is evaluated based on certain criteria:

- Priority regions (Quebec, Northeastern United States and France);
- Scope, transparency, reliability and credibility of the applicant; and
- The innovative nature of the project or organization.

Boralex will not accept applications submitted in an unreasonably short period of time before the event in question, or from religious organizations, neither to support a single person, extracurricular activities for students as well as organizations to which Boralex has already given a donation in the current year.
