

# OLD ELM

WIND

POTENTIAL

The Old Elm Wind Farm is a 60 MW wind farm proposed by the Alberta Renewable Power Limited Partnership, a joint venture between Alberta Wind Energy Corporation (AWEC) and Boralex. The project would be located 10 km South of the town of Magrath, in Southern Alberta.

For more information on the proposed Windy Point wind farm, please visit [www.oldelmwindfarm.ca](http://www.oldelmwindfarm.ca).
