

Interconnector Study Area	Road	Other Wind Turbines
Project Study Area	Expressway / Highway	Mohawk Wind Farm (Existing)
Proposed Turbine Location	Active Railway	Rosa Flora Turbine (Existing)
Transformer Substation	Abandoned Railway	Wainfleet Wind Energy Project (Proposed)
Tap-in Location	Existing Structures	HAF Wind Energy Project (Proposed)
Existing Met Tower	Existing Transmission Line	Grand Renewable Energy Park (Proposed)
Preferred Transmission Route	Watercourse	Other Wind Farm (Proposed)
Alternate Transmission Route	Waterbody	
Collector Lines – Underground or Overhead	Wooded Area	
Potential Access Road	Municipality Lower Tier	

Notes

1. Coordinate System: NAD 1983 UTM Zone 17N
2. Base features produced under license with the Ontario Ministry of Natural Resources © Queen's Printer for Ontario, 2012.
3. This figure illustrates the proposed location of the turbines, substation and transmission line, as included in the Draft Site Plan Report. The final Project Location, including all turbines, access roads, collector lines, transmission line, substation and construction area, will be identified and described in the final draft Renewable Energy Approval reports, which will be provided for public review at least 60 days in advance of the final public meeting.

Draft Site Plan

February, 2013
