Dear Mr. Rosso:

**Re: Niagara Escarpment Development Permit #10559/N/S/2012-2013/191
Town of Lincoln, Region of Niagara
Niagara Region Wind Farm Transmission Line**

The Niagara Escarpment Commission (NEC) has received satisfactory documentation with respect to the clearance of Conditions 1 to 30 of the above-noted Development Permit. Construction must proceed in accordance with the drawings submitted to the NEC and referenced in the individual clearance emails that you have received.

You may now proceed with the construction of the transmission line once you have obtained any other related approvals required from the municipalities or other agencies.

We trust that this is satisfactory. If you have any questions, please contact me at 905-877-8363.

Yours truly,
